

Compiled by the Custodian of the Rothschild Collection of
Siphonaptera, Department of Entomology, British Museum
(Natural History), South Kensington, London SW7 5BD

MAR 26 1982

of Science and Technology

Enclosures:

- lists of additional literature for 1973 (list 8), 1975 (list 8), 1976 (list 4) and the first (meagre) list for 1977
- a bibliography of publications on fleas by K. Jordan (111 titles)
- a concise list of organisms associated with fleas
- a copy of the preliminary programme of the June 1977 International Conference on Fleas at Ashton Wold (sent -by courtesy of the hon. Conference secretary- only to non-participants, just to keep them informed)

* * *

With much relief we learned that our colleague Dr Maria Suciú and her relatives came to no harm during the severe earthquake which ravaged Romania, especially Bucharest, earlier this year. The Institute where she works and which houses the flea collection fortunately escaped much damage although various other Institutes nearby were wrecked.

KARL JORDAN - It is gratifying that in Prof. Ernst Mayr's 1976 book "Evolution and the diversity of life. Selected essays." (Cambridge Mass. & London U.K. - Belknap Press of Harvard Univ. Press; ix + 721 pp., figs.) three chapters are devoted to the late Dr Jordan's contributions to the theory of speciation: "Karl Jordan on speciation" (pp. 135-143); "Karl Jordan on the theory of systematics and evolution" (pp. 297-306); "Karl Jordan and the biological species concept" (pp. 485-492).

* * *

ENGLISH ABSTRACTS of the numerous papers in the two volumes of M.N.A.E.C. (Mezhdunarodnye i natsional'nye Aspekty Epidnadzora pri Chume [Irkutsk]), as enumerated in list 4 for 1975 (Flea News 7), are published in 1977 Rev. appl. Ent. (B) 65(4): 268-287 (abstracts Nos 888-944).

* * *

FLEAS IN 'FINE' ART - Some Old Masters utilized the subject of a flea hunt as a theme for a charming or mildly erotic picture.

The following are known to me:

[Gherardo delle Notti, Italian nickname of] Gerard van Honthorst (1590-1656) - Woman dropping fleas in a bowl of water. (Galleria Doria Pamphilj, Palazzo Doria, Roma)

- Chasse aux puces. (Öffentliche Kunstsammlung, Basel)

Georges de La Tour (1593-1652) - La puce. (Musée historique lorrain, Nancy)

Gerard ter Borch (1617-1681) - A boy de-fleaing his dog. (Alte Pinakothek, München)

Nicolas Lancet (1690-1743) - La chercheuse de puces. [In England more modestly known as "A girl in a kitchen"]. (Wallace Collection, London)

William Blake (1757-1827) - The ghost of a flea. (Tate Gallery, London)

Do you know any other examples, please ?

F.S.

MAILING LIST

Change:

Dr R. Iyengar - World Health Organization, P.O.Box 107, Kathmandu, NEPAL

Additions:

Dr A. M. Barnes - Plague Branch, Vector-borne Diseases Division, Center for Disease Control, P.O.Box 2087, Fort Collins, Colorado 80522, U.S.A.

Prof. N. Haarløv - Den kgl. Veterinær- og Landbohøjskole, Zoologisk Institut, Bülowsvej 13, 1870 København V, DENMARK

Dr M. Kiefer - Department of Systematic and Ecological Zoology, Comenius University, Moskovská 2, Bratislava, CZECHOSLOVAKIA

Miss A. M. Pearce - Zoology Department, The University of Tasmania, Box 252 C, G.P.O., Hobart, Tasmania, AUSTRALIA 7001

Dr V. N. Prokop'yev - Institute of Natural Sciences, Academy of Sciences of the U.S.S.R., 670 000 Ulan Uda, Buryat A.S.S.R., U.S.S.R.

Dr V. S. Vashchyonok - Anti plague Station, Nevelskaya 3, 198 035 Leningrad, U.S.S.R.

"There is too much paper in this world."

G. H. E. Hopkins

* * *

COMPLETE / COMPLETENESS - It is hoped that the enclosed Jordan bibliography is complete. One cannot easily be sure about the completeness of "complete". Up till the beginning of this year there were 110 Jordan titles (excluding Jordan & Rothschild) in our card index of flea literature - this had always been assumed to be an exhaustive listing of KJ's publications on the subject. It came therefore as a surprise when, early this year, I purely accidentally discovered a short paper by Jordan (1924) which was quite unknown. That find prompts me now to write:

HONOUR TO WHOM HONOUR IS DUE - Smit (1949, Ent. Ber., Amst. 12: 436-437, 1 fig.) described and figured the specimen of *Xenopsylla cheopis* with duplicated genitalia which -unknown to him- had already been described (but not illustrated) by Jordan (1924). At the time the manuscript was shown to Dr Jordan and as he then did not remark that he had already -25 years previously- published a note on the same specimen, this must have slipped his mind.

This reminds one of another obviously overlooked paper: Southern, H.N., 1940, The ecology and population dynamics of the wild rabbit (*Oryctolagus cuniculus*). Ann. appl. Biol. 27: 509-526. On p. 519 we read: "Rabbit fleas (*Spilopsyllus cuniculi* (Dale)) were found fairly commonly on the trapped animals, but there was variation in the degree of infestation according to season and according to sex. In April and early May the only animals with anything like heavy infestations were the adult does. From about the middle of May onwards the young and then the adult bucks begin to be infested, and a peak is reached about the middle and end of July. After that the numbers decrease gradually until in September only a few odd ones are found. These fleas are mostly found on the ears of the rabbits, but a number were usually to be found about the head region. These were not apparent at first, but blowing on the fur was sufficient to dislodge them and make them come to the surface."

Some 20 years later such facts were rediscovered by M. Rothschild and A. R. Mead-Briggs.

- 1908 (IV) - Hystrichopsylla narbeli, Galli-Valerio. MM 44(527): 91.
- 1921a (15.I) - A link between the double and single receptacula seminis of Siphonaptera. EC 1(3): 127-128, fig. 104.
- 1921b (15.I) - Note on some fleas in the Genoa Museum. EC 1(3): 141.
- 1924 (13.VI) - Xenopsylla cheopis with a double spermatheca. TL (1923): lxxxi-lxxxii.
- 1925a (30.IV) - New Siphonaptera. NZ 32(1): 96-112, figs. 1-46.
- 1925b (30.IV) - Siphonaptera collected by Rear-Admiral H. Lynes in Darfur in 1920 to 1922. NZ 32(1): 113.
- 1925c - Siphonaptera. In: T. Monod - Parasitologia Mauritanica. Matériaux pour la faune parasitologique en Mauritanie. BC 8(1): 101-102.
- 1926a (VIII) - On Xenopsylla and allied genera of Siphonaptera. VZ 2: 593-627, figs. a, b, 1-21, pl. 17 figs. 22-32, pl. 18 figs. 33-49, pl. 19 figs. 50-63, pl. 20 figs. 64-83.
- 1926b (8.XII) - New Siphonaptera. NZ 33(3): 385-394, figs. 1-22.
- 1928a (29.II) - Siphonaptera collected in the Dolomites. NZ 34(2): 173-177, figs. 1-6.
- 1928b (29.II) - Siphonaptera collected during a visit to the eastern United States of North America in 1927. NZ 34(2): 178-188, figs. 7-10.
- 1929a (25.I) - Notes on North American fleas. NZ 35(1): 28-39, pl. I figs. 1-18, pl. II figs. 19-31.
- 1929b (25.I) - Some Old-World Siphonaptera. NZ 35(1): 40-41, figs. 1-3.
- 1929c (25.I) - Further records of North-American bird-fleas, with a list of the Nearctic birds from which fleas are known. NZ 35(1): 89-92.
- 1929d (31.VII) - On a Brazilian sand-flea, Tunga caecata, Enderl. 1901. PE 4(1): 34-35.

- 1929e (30.IX) - On fleas collected by Dr. H. M. Jettmar in Mongolia and Manchuria in 1927 and 1928. NZ 35(2): 155-164, pl. VII figs. 1-6, pl. VIII figs. 7-15, pl. IX figs. 16-21, pl. X figs. 22-26.
- 1929f (30.IX) - Two new African species of *Ctenophthalmus* (Siphonaptera). NZ 35(2): 165-167, figs. 1-4.
- 1929g (30.IX) - On a small collection of Siphonaptera from the Adirondacks, with a list of the species known from the State of New York. NZ 35(2): 168-177, figs. 5-8.
- 1929h (30.IX) - Some new Palaearctic fleas. NZ 35(2): 178-186, figs. 9-18.
- 1929i (XII) - On some problems of distribution, variability and variation in North American Siphonaptera. TI: 489-499, figs. 1-11.
- 1930a (2.IV) - Two new American fleas. NZ 35(3): 268-269, figs. 1-2.
- 1930b (15.XI) - On some South African fleas. NZ 36(1): 129-138, figs. 1-7.
- 1931a (21.III) - The President's Address. PE 5(3): 128-142, figs. 1-11.
[Siph.: 137-142, figs. 6-11]
- 1931b (20.IV) - Flöhe aus Venezuela. ZP 3(2): 264-266, fig. 1.
- 1931c (22.IV) - Three new species of *Neopsylla* (Siphonaptera) from the Oriental Region. NZ 36(2): 220-224, figs. 1-5.
- 1931d (22.IV) - Siphonaptera collected by Mr. F. J. Cox in France. NZ 36(2): 225-229, figs. 1-4.
- 1931e (22.IV) - Records of fleas from the Austrian Tirol and the Dolomites. NZ 36(2): 230-232, fig. 1.
- 1931f (22.IV) - On some fleas collected by Monsieur Heim de Balzac in western Algeria. NZ 36(2): 233-234, figs. 1-4.
- 1931g (3.IX) - Three new South American fleas. NZ 36(3): 311-316, figs. 1-5.
- 1931h (21.XII) - Further records and descriptions of fleas from Ecuador. NZ 37(1): 135-143, figs. 1-12.
- 1931i (21.XII) - Three new Old World fleas. NZ 37(1): 144-147, figs. 1-6.
- 1932a (15.III) - Die aus der arktischen Zone bekannten Flöhe. FA 6(2): 115-118.
- 1932b (30.XII) - Siphonaptera collected by Mr. Harry S. Swarth at Atlin in British Columbia. NZ 38(1): 253-255, figs. 10-11.
- 1932c (30.XII) - The Siphonaptera collected by Mr. J. L. C. Musters in Norway on the lemming. NZ 38(1): 256-257, figs. 12-13.
- 1932d (30.XII) - Siphonaptera collected by Mr. C. Elton in Lapland. NZ 38(1): 258-260, fig. 14.
- 1932e (30.XII) - Siphonaptera collected by Herr Georg Stein in the High Tatra. NZ 38(1): 261-263, figs. 15-18.
- 1932f (30.XII) - A new *Xenopsylla* from Hawaii. NZ 38(1): 264-266, figs. 19-22.
- 1932g (30.XII) - New Oriental fleas. NZ 38(1): 267-275, figs. 23-32.
- 1932h (30.XII) - Siphonaptera collected by Harold Stevens on the Kelley-Roosevelt expedition in Yunnan and Szechuan. NZ 38(1): 276-290, figs. 33-49.
- 1932i (30.XII) - Notes on Siphonaptera. NZ 38(1): 291-294.
- 1932j - Die Siphonaptera Bulgariens. IS 5: 145-148.
- 1933a (I) - Two new American species of Siphonaptera. EN 66(836): 14-17, figs. 1-7.

- 1933b (15.VI) - Four new fleas collected by Professor F. Spillmann in Ecuador. NZ 38(2): 343-348, figs. 62-67.
- 1933c (15.VI) - Two new species of *Ctenophthalmus* from tropical Africa (Siphonaptera). NZ 38(2): 349-351, figs. 68-71.
- 1933d (15.VI) - Fleas collected by Dr. Max Bartels in Java. NZ 38(2): 352-357, figs. 72-78.
- 1933e (15.VI) - Two new South American bird-fleas. NZ 38(2): 358-361, figs. 79-81.
- 1933f (23.X) - Siphonaptera collected by Mr. F. Shaw Mayer in mandated New Guinea. NZ 39(1): 55-61, figs. 3-10.
- 1933g (23.X) - Records of Siphonaptera from the State of New York. NZ 39(1): 62-65, figs. 11-12.
- 1933h (23.X) - Descriptions of Siphonaptera. NZ 39(1): 66-69, figs. 13-19.
- 1933i (23.X) - A survey of the classification of the American species of *Ceratophyllus* s. lat. NZ 39(1): 70-79.
- 1934 (30.V) - On some Siphonaptera from Argentina. RS 6(1): 19-21, 1 fig.
- 1936a (16.III) - Siphonaptera from Congo Belge. NZ 39(4): 294-299, figs. 52-58.
- 1936b (16.III) - Siphonaptera from East Africa. NZ 39(4): 300-304, figs. 59-66.
- 1936c (16.III) - Some Siphonaptera from South America. NZ 39(4): 305-310, figs. 67-75.
- 1936d (25.VIII) - Dr. Karl Jordan's expedition to South-West Africa and Angola. Narrative. NZ 40(1): 17-62, figs. 20-33. [Siph.: 21, 23, 33, 49, 52, 53, 56]
- 1936e (25.VIII) - Dr. Karl Jordan's expedition to South-West Africa and Angola: Siphonaptera. NZ 40(1): 82-94, figs. 34-41.
- 1936f (15.IX) - Two new Australian fleas. PN 61(3-4): 184-185, figs. 1-2.
- 1937a (10.IX) - On some North American Siphonaptera. NZ 40(2): 262-271, figs. 44-56.
- 1937b (10.IX) - A further collection of Siphonaptera obtained by Mr. F. Shaw Mayer in eastern New Guinea. NZ 40(2): 272-282, figs. 57-69.
- 1937c (10.IX) - Records and descriptions of Siphonaptera. NZ 40(2): 283-291, figs. 70-79.
- 1937d (10.IX) - Some Siphonaptera from Morocco. NZ 40(2): 292-294, figs. 80-81.
- 1937e (10.IX) - A new flea from China. NZ 40(2): 295-296, figs. 82-83.
- 1937f (10.IX) - A new *Xenopsylla* from Nyasaland (Siphonaptera). NZ 40(2): 297-298, figs. 84-86.
- 1937g (10.IX) - Three new bird-fleas from Kashmir. NZ 40(2): 299-306, figs. 87-92.
- 1937h (10.IX) - Two new fleas from South America (Siphonaptera). NZ 40(2): 307-310, figs. 93-97.
- 1937i (10.IX) - On some Australian Siphonaptera. NZ 40(2): 311-315, figs. 98-100.
- 1937j (31.XII) - Some new African Siphonaptera. NZ 40(3): 329-332, figs. 101-108.

- 1938a (25.XI) - Where subspecies meet. NZ 41(2): 103-111, figs. 48-53.
- 1938b (25.XI) - On some Siphonaptera from tropical Africa and Iraq. NZ 41(2): 112-118, figs. 54-64.
- 1938c (25.XI) - On some Nearctic Siphonaptera. NZ 41(2): 119-124, figs. 65-75.
- 1938d (25.XI) - On the species of bird-Parapsylli from the Falklands obtained on the British Graham Land expedition, 1934-37. NZ 41(2): 134-139, figs. 80-84.
- 1938e (25.XI) - On some Neotropical Siphonaptera. NZ 41(2): 164-169, figs. 108-114.
- 1938f (30.XII) - The species problem as seen by a systematist. PL [Session 150](4): 241-247. [Siph.: 246-247]
- 1939a (25.II) - Siphonaptera. RE 3(2): 41-49, figs. 1-6, pl. IV.
- 1939b (IV) - Über zwei die Entomologie betreffende Nomenklaturfragen. VB 1: 583-587.
- 1939c (31.VIII) - On five new Siphonaptera from the Republic of Argentina. NZ 41(3): 292-303, figs. 256-265.
- 1939d (31.X) - On some Nearctic fleas. NZ 41(4): 316-320, figs. 266-271.
- 1939e (31.X) - Siphonaptera collected by Dr. Gerd Heinrich in Burma. NZ 41(4): 362-375, figs. 284-296.
- 1939f (31.X) - On Rhopalopsyllus Baker 1905 (Siphonaptera). NZ 41(4): 443-448, figs. 323-332.
- 1940a (XII) - Cinco nuevos Siphonapteros de la República Argentina. RI 9(5): 605-622, figs. 256-265.
- 1940b - Where subspecies meet. CM 1: 145-151.
- 1941a (15.III) - Two new Siphonaptera from the Belgian Congo. PB 10(3): 43-46, figs. 1-3.
- 1941b (4.IV) - A new rat-flea from China. EN 74(935): 85-86, figs. 1-3.
- 1941c (31.XII) - On four eight-combed Chinese bat-fleas of the genus Ischnopsyllus in the collection of the British Museum (Natural History). PA 33(4): 363-372, figs. 1-18.
- 1942a (10.IV) - On Parapsyllus and some closely related genera of Siphonaptera. EO 18(1): 7-29, figs. 1-10.
- 1942b (8.X) - On the Siphonaptera collected by Dr. J. M. de la Barrera in the province of Mendoza during 1939. RM 10(4): 401-460, figs. 1-34.
- 1942c (30.XII) - On four new Palearctic [sic] bat-fleas in the British Museum collection. EO 18(4): 243-250, figs. 1-8.
- 1943a (7.II) - Two new fleas from Uganda in the British Museum. EN 76(957): 31-33, figs. 1-4.
- 1943b (22.X) - Siphonaptera. Fleas. In: J. Smart - Handb. Identif. Ins. med. Importance. London (Brit. Mus.): 202-223, figs. 128-143.
- 1944 (14.XII) - Siphonaptera collected by Mr. J. L. Chaworth-Musters in north-eastern Afghanistan. PZ 114(3): 360-367, figs. 1-10.
- 1945a (26.VII) - On the status, under article 25 of the International Code, of the names of species of parasites published, prior to 1st January 1931, with no description, definition, or indication other than the name of the host. BZ 1(5): 97-98.

- 1945b (31.X) - On the deciduous frontal tubercle of some genera of Siphonaptera. PB 14(9-10): 113-116, figs. 1-4.
- 1946a (15.VI) - A new flea from Turkey (Siphonaptera). PB 15(5-6): 51-53, figs. 1-2.
- 1946b (IX) - On a new genus and species of bat-fleas from the Pelorus Islands and New Zealand. TN 76(2): 208-210, pl. 22 fig. 1, pl. 23 figs. 2-5.
- 1947a (1.X) - On some phylogenetic problems within the Order of Siphonaptera (= Suctoria). TE 88: 79-93, figs. 1-9.
- 1947b (17.X) - On Thaumapsyllinae, a new subfamily of bat fleas (Suctoria, Ischnopsyllidae). PW 49(7): 182-184, figs. 1-2.
- 1948 (VI) - Suctoria. Fleas. In: J. Smart - Handb. Identif. Ins. med. Importance. London (Brit. Mus.) (Ed. 2): 211-245, figs. 128-143.
- 1949 (17.V) - On some palaearctic species of Xenopsylla (Suctoria = Siphonaptera). EN 82(1032): 111-115, figs. 1-4.
- 1950a (VIII) - Notes on a collection of fleas from Peru. BW 2(4): 597-609, figs. 1-5.
- 1950b (VIII) - Notes sur une collection de puces provenant du Pérou. BO 2(4): 633-646, figs. 1-5.
- 1950c - On characteristics common to all known species of Suctoria and some trends of evolution in this Order of insects. PS: 87-95, figs. 1-25.
- 1950d - Siphonaptères. [Contribution à l'étude de l'Afr]. MI (10): 282-283.
- 1951a (20.IV) - On the question of the availability of the generic name "Leptopsylla" Rothschild & Jordan, 1911 (Class Insecta, Order Siphonaptera). BZ 2(1): 21-22.
- 1951b - On Leptopsylla taschenbergi Wagner 1898. EO (Extraord. Vol. 1950): 19-26, figs. 1-5.
- 1953 (4.XII) - On a very remarkable flea from Argentina collected by Dr. J. M. de la Barrera. BB 3(5): 179-186, figs. 1-5.
- 1954 - Siphonaptera. RT (30): 1-2, 1 fig.
- 1958 (II) - A contribution to the taxonomy of Stenoponia J. & R. (1911), a genus of Palaearctic and Nearctic fleas. BB 6(7): 169-202, figs. 1-30.
- 1962 (10.VIII) - Notes on Tunga caecigena (Siphonaptera: Tungidae). BB 12(7): 353-364, figs. 1-14.
